

AKAMI

Stefano Sandonà Design

Akami chairs are some of the most reliable, comfortable and stackable chairs in the Gaber collection. The ergonomic and stylish research encapsulates in a few essential features a sophistication and comfort. Thanks to the special 1034 elliptical holes in the back of the Akami chair, the chair itself is able to breathe while the user experiences a sense of general well-being, even during prolonged use. The handle integrated into the design of the shell makes for easy moving around. Link them together to create rows of seating or arrange them to fit any corporate office, conference room or public space. Seats come in your choice of techno-polymer or upholstery, with a wide variety of colors and finishes.

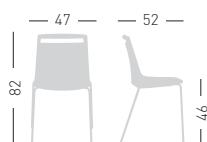

Le sedute Akami sono alcune delle più affidabili, confortevoli ed impilabili sedute della collezione Gaber. L'approfondita ricerca stilistica ed ergonomica, sintetizza in pochi tratti essenziali una sedia sofisticata e assolutamente confortevole. La particolare foratura dello schienale, realizzata con 1034 fori ellittici, consente una corretta traspirazione e un benessere generale dell'utente, anche per un uso prolungato. La maniglia integrata nel disegno della scocca è ottimale per una semplice trasportabilità. Unisci tra loro le sedie e disponile su file, oppure utilizzale per la realizzazione di uffici, sale conferenza e spazi pubblici: la collezione è disponibile a scelta tra il tecnopoliomer o le versioni tappezzate, con una larga gamma di colori e finiture che permettono un'ampia customizzazione.
