PHYLO

Phylo è un sistema libreria a spalla portante con un'estetica originale e versatile, che può abitare i diversi spazi dell'ufficio.

Il fulcro del progetto è rappresentato dalla personalizzazione del ripiano e della schiena strutturale che possono ospitare pannelli di diversi materiali definendo l'estetica e la funzionalità dell'intero sistema. Le schiene possono essere montate in ordine sparso sulla struttura creando un piacevole movimento sulla parete, così come i ripiani, i contenitori e altri accessori formano dei pieni-vuoti che diventano funzionali per ospitare libri e oggetti. Phylo è l'espressione di un'idea creativa impostata su una fluida leggerezza.

Phylo is a bookcase system with a load-bearing lateral structure. Its original and versatile aesthetic can be used in different office spaces. The heart of the project is represented by the customisation of the shelf and the structural back, which can accommodate panels of different materials. The backs can be fitted randomly on the structure, creating a pleasant movement on the wall, just as the shelves, containers and other accessories form full empty spaces that become functional for storing books and objects. Phylo is the expression of a creative idea based on fluid lightness.

Phylo est un système de bibliothèque avec une structure latérale portante, à l'esthétique originale et polyvalente qui peut habiter différents espaces de bureau.

Le cœur du projet est représenté par la personnalisation de l'étagère et du dossier structurel qui peut accueillir des panneaux de différents matériaux, définissant l'esthétique et la fonctionnalité de l'ensemble du système. Les dossiers peuvent être montés de manière aléatoire sur la structure, créant ainsi un mouvement agréable sur le mur, tout comme les étagères, les contenants et autres accessoires forment des espaces vides qui deviennent fonctionnels pour accueillir livres et objets. Phylo est l'expression d'une idée créative basée sur la légèreté fluide.
