## Who we are

Seccom Ltd was first introduced to the Cypriot market in 1987, with products for furnishing the office space. It soon became the exclusive commercial partner for Cyprus, of famous ergonomic office seats originating in Germany and Italy

In the early 1990s, the Company expanded into home furnishings as well as cafeteria, garden and terrace furniture. The collection is also complemented by business desks, libraries, screens, dividers and other office furniture

At the same time, the Company is present in the field of supply and installation of integrated mobile furniture packages in professional office spaces, in places of mass catering and hospitality, public buildings, clinics, hospitals, etc.

In October 2004, Seccom moved and operated a privately owned exhibition and office complex on Athalassas Avenue in Nicosia. The Company has owned a private warehouse in the Dali Industrial Area since then, which is properly equipped to carry out assemblies and repairs

Our suppliers have long been part of the elite of European manufacturers and are mainly found in Italy, Germany and the Netherlands. With most of them our cooperation lasts for decades

Seccom has been a leader in its category, holding the ISO 9001 Quality Assurance Certificate since 1998. The company also holds an ISO 14001 certificate in the Environmental Management System from 2018

## Our Mission

Seccom, with a dynamic and timeless presence in the furniture industry, relies on:

- Guaranteed Quality with Style
- Reasonable prices
- After sales Technical Support for complete customer satisfaction

By delivering the finest quality for both indoor and outdoor areas, as well as office-working environments, we aim to bring class and cosiness to your space. Our top priority is communicating the aesthetics, functionality through a wide, but also a unique collection of furniture.

Seccom, a team of professionals, with over 35 years of experience in the Cyprus furniture industry, welcomes you to innovation – a boundless journey of exchange, offering solutions, enriching spaces with design and comfort.

We are here for the present, yet we are building on your future.

A mission shared, is a mission accomplished.

Our suppliers belong to the elite of the furniture manufacturers of Europe, mainly located in Italy and Germany. With most of them the cooperation has been lasting for decades. They participate in all major international exhibitions and they ship their products to their clientele worldwide.

Their philosophy is simple, but difficult to achieve if not in the business traditionally. They connect the object to the subject by designing for and with the customer, to achieve simple customized products or exclusive creations. They share with the designers experience, expertise and production capability, producing objects with a high level design and impeccable quality. The industrial mentality transforms craftsmanship, while the technique keeps developing thanks to creativity. The manufacturer and its associated distributors convert into stylish studios.

The associating companies on the home page are only an indicative part of the companies we work with, in order to present to our customers the best that furniture has to offer. Browse through their web pages for exciting moments.

# Avenica

Frame Finishes

Shell Colors

Materials

Avenica; an innovative and ambitious project, designed with lightness, freshness and simplicity for all the individual occasions in which we spend time seated. The thin and resistant texture of the seat and backrest make it perfect for intensive use, the lightness and stackability make it practical, the patented construction system makes it unalterable and eco-sustainable.

## Characteristics:

- Technopolymer shell
- Twin material
- Suitable both for indoors and outdoors
- Stackable
- Plastic feet caps to prevent floor damage
- CATAS certified

## Bakhita

### Shell Colors

### Materials

Bakhita is no ordinary plastic chair. The 2K plastic injection process with which it is made, makes it robust and durable. The technology is complex, the result is simple: a high quality, lightweight, stackable, comfortable chair that looks elegant and stylish anywhere.

### Characteristics:

- Technopolymer shell
- Suitable both for indoors and outdoors
- Stackable
- Plastic feet caps to prevent floor damage
- CATAS, COSMOS and BIFMA certified

# Nuta

## Shell Colors

## Materials

Classic and authentic, elegant with fine detailing. Nuta is a seating collection made of technopolymer, with refined and timeless style, suitable for prestigious installations both indoors and outdoors. These exquisitely defined lines of Nuta, harmoniously connected by Studio Favaretto, give a result that arouses wonder at first sight. Generous dimensions and superior ergonomic comfort distinguish Nuta in use, even for prolonged periods.

## Characteristics:

- Technopolymer shell
- Suitable both for indoors and outdoors
- Stackable
- CATAS and BIFMA certified

Nuta

## Lilibet

### Shell Colors

### Zero Waste Selection 100% Recycled

### Materials

The Lilibet collection is a family of stackable chairs made of technopolymer, with ethereal and decisive lines, which combines perfectly functionality and seating comfort. Thanks to the generous dimensions and the modern colors available, it becomes the protagonist of environments of absolute prestige.

Lilibet is also offered in three shades using the "100% Gaber Recycled" material, i.e. a compound obtained from Post-Consumer Recycled (PCR) plastic material and from pre-consumer industrial plastic material waste (PIR), which Gaber is able to obtain with cutting-edge recycling technologies.

### Characteristics:

- Technopolymer shell
- Suitable both for indoors and outdoors
- Stackable
- CATAS and BIFMA certified

# Minush

Shell Colors

Materials

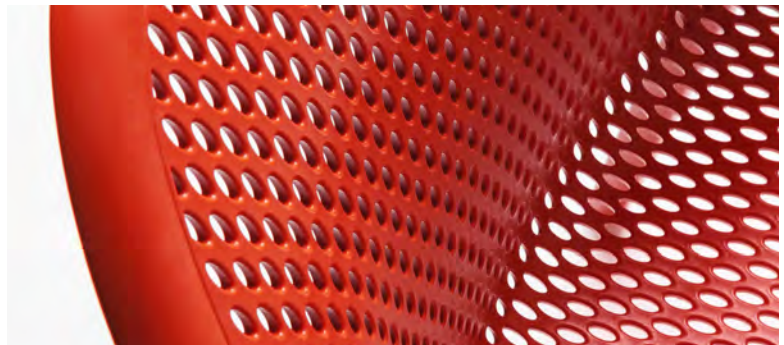

Minush is an elegant collection intended for outdoor use, with a comfy look and generous proportions. This lively stackable armchair combines its hard-wearing materials with the lively choice of colorways, to become a key player in numerous settings.

The Grand Minush sofa set collection is intended for outdoor use and has been designed with contemporary living in mind. Gaber's 2K plastic injection procedure, and the steel and aluminium inserts that form the core, make Grand Minush sturdy and durable; the combination of colorfast and nondeformable materials with the vibrant colorways available make for easy fitting into the most modern of hospitality environments.

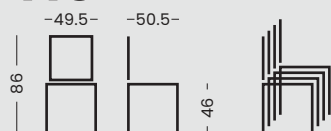

## Characteristics:

- Technopolymer shell
- Suitable both for indoors and outdoors
- Stackable
- CATAS certified

## Iris

### Shell Colors

### Materials

Iris chairs are solid, built to last; with an injected high-resistance techno-polymer shell and metal-polymer co-injected patented legs. This model ensures optimum resistance to atmospheric conditions, salt spray, fungi, insects, even in extreme conditions. It provides exceptional resistance to environmental stresses: a perfect solution for high-traffic interior and exterior settings.

### Characteristics:

- Technopolymer shell
- Suitable both for indoors and outdoors
- Stackable
- CATAS certified

Iris

## Flap

### Shell Colors

### Materials

Technique and Design come together in the Flap folding chair. Entirely in technopolymer, and therefore completely recyclable, Flap is distinguished by its great comfort, resistance and stability. Flap folds easily into an extremely limited space, thanks to a patented system that also allows highly practical stackability.

### Characteristics:

- Technopolymer shell
- Suitable both for indoors and outdoors
- Stackable
- CATAS and BIFMA certified

## Kanvas

### Shell Colors

### Frame Colors

### Materials

Kanvas is a collection of stackable chairs and stools, available in techno-polymer or upholstered. Its sleek, lean design and its glossy finishing behind the backrest are inspired by the beauty of neoclassical sculptures. Kanvas has a gently controlled flex that moves with the user's bodyweight to provide comfort, even for extended periods. Kanvas chair is perfect for kitchen, conference, auditoriums, educational and healthcare spaces, or cafeterias.

### Characteristics:

- Technopolymer shell and metal frame
- Suitable both for indoors and outdoors

Amitha Lounge

## Rion

Shell Colors and material

Rion is a collection of chairs, armchairs and stools, made solely from die-cast aluminium. The slimline, graphic silhouette gives rise to light-weight chairs – designed for residential and contract use. Rion stackable outdoor chairs are a versatile resource to use and store in a limited amount of space.

### Characteristics:

- Die cast aluminium frame, seat & back
- Stackable
- Plastic feet caps to prevent floor damage

# Forest

Shell Colors and material

Forest is a collection of chairs with or without arms, but also stools. It's an extensive range of die cast aluminium furniture with unique and original design that naturally blends with its surroundings. An astonishing design with solid aluminium, which highlights its durability, endless use, UV resistance and low maintenance. Forest is an airy, exceptional design that adds value to an outdoor experience. Forest is available in many bright, but also natural earthy colors.

## Characteristics:

- Die cast aluminium frame, seat & back
- Stackable \*not with arms
- Plastic feet caps to prevent floor damage

## Zebra

Shell Colors and material

Zebra chair, which is suitable for both residential and contract use, is made from die cast aluminium. A linear, symmetric design that emerges the beauty of an outdoor setting.

A sophisticated, simple design that endures all weather. Zebra is available in many vibrant, but also muted colors. Zebra square up & down table with three adjustable heights in painted aluminium is also available upon request.

### Characteristics:

- Die cast aluminium frame, seat & back
- Stackable
- Plastic feet caps to prevent floor damage

## Ria

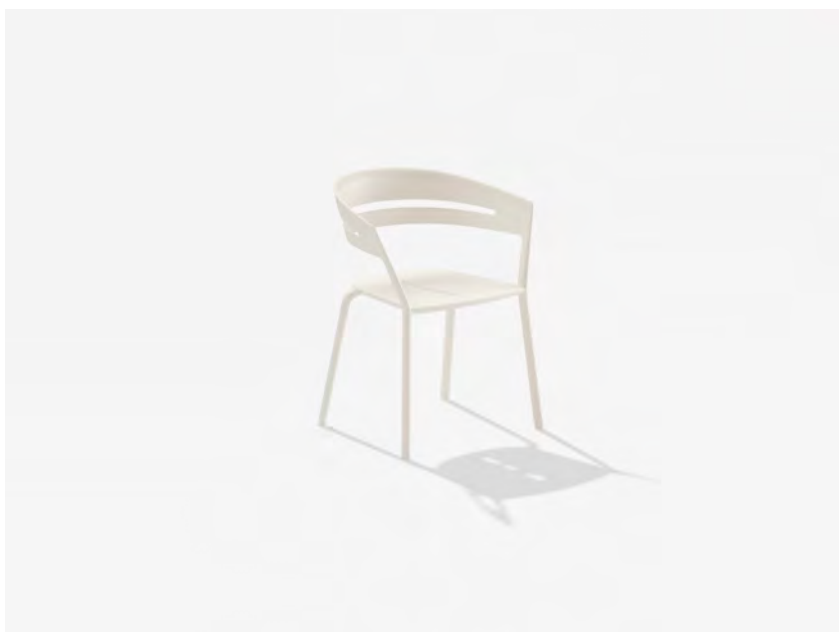

Shell Colors and material

Ria; a versatile design that welcomes you to take a seat. A curved die cast aluminium chair that enhances the unity and harmony of any outdoor space. Ria meets the need to live outdoors in different settings, situations and seasons, with a constant focus practicality and comfort. It is available in a range of colors.

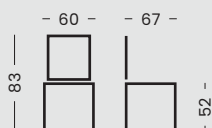

### Characteristics:

- Die cast aluminium frame, seat & back
- Stackable
- Plastic feet caps to prevent floor damage

# Montreal

Frame Color

# Doge

L190 x W72 x H33cm

Frame Colors

Materials

Doge sunbed uses high-strength technopolymer on the relaxation surface that can withstand intensive use. The blend of polymers guarantees great flexibility that adapts ergonomically to body shapes. The surface dedicated to relaxation turns out to be clean and floating, suspended in mid-air, minimizing volumes. Doge has 5 adjustable positions and practical castors, with a correct balance of steel, aluminium and techno-polymer material. Resistant to salt, UV rays, and swimming pool chlorine allow Doge to be in any outdoor environment. Thanks to its stackability, lightness, Doge is practical and efficient.

## Podio

L190 x W72 x H33cm

Frame Colors

Materials

Podio sunbed enhances outdoor environments with innovative, contemporary and simple designs. A sun-bed uses synthetic fiber on the relaxation surface, consisting of a weave of polyester fibers covered in PVC, able to withstand compression stress, swimming pool chlorine, salt and UV rays. This material, thanks to its micro-holes, is breathable and allows moisture and water to escape without creating stagnant deposits. The surface dedicated to relaxation turns out to be clean and floating, suspended in mid-air, minimizing volumes. Podio has 5 adjustable positions and practical castors, with a correct balance of steel, aluminium and techno-polymer material. Resistant to salt, UV rays, and swimming pool chlorine allow Podio to be in any outdoor environment. Thanks to its stackability, lightness, Podio is practical and efficient.

# Hami

L203 x W72 x H47cm

Frame Colors

Materials

Hami sunbed is an elegant design. Its key characteristics are delicacy, durability and quality. A sun lounger that is stackable with aluminium frame and high-resistance double-mesh. Hami has 5 adjustable positions and practical castors for transportation or storage purposes. Hami is the perfect fit for hospitality.

# Cannes

W68 x L144/173 x H105/81cm

Frame Colors

Materials

Cannes sunlounger is the uplifting experience of sunbathing or relaxing. It is a unique and minimal design. Its key characteristics are delicacy, durability and quality. A sun lounger that is stackable with aluminium frame and high-resistance mesh with a tilting mechanism. Cannes is the new luxury for any outdoor demanding environment.
